

LECTURES

Department
of Chemistry

Upcoming Lecture

March 5, 2018

12:00 h Sala d'Actes (C1/-178), Faculty of Sciences, UAB

Prof. Dr. Francesc Illas

Departament de Ciència de
Materials i Química Física & IQTCUB

Universitat de Barcelona

**“How far quantum
chemical models can go
on predicting properties
of realistic
semiconducting oxide
nanoparticles?”**

This lecture has been organised the frame of the regular activities for the PhD students. The PdD students have to attend at least a 60% of the lectures organised, annually, by the Department of Chemistry.
