

**SEMINARI
26 DE JUNY DE 2012**

Lloc: Sala de Graus II (C5/1068), Facultat de Ciències i Biociències - A les 11.30 hores

Conferència a càrrec de
Prof. Suzanne A. Blum

University of California, Irvine-US

"Single-Molecule Tools for Synthetic Chemists and Dual-Catalysis with Gold"

The development of microscopy tools to understand chemical reactions of interest to synthetic chemists will be discussed. The development of reactions cooperatively catalytic in both gold and palladium will also be discussed, with a focus on developing new strategies for activating organic substrates.

Aquesta conferència forma part de les activitats formatives programades pel seguiment del progrés del doctorand
