

Master in Neuroscience

TFM Presentation – September 2026

September 8th

Room – Laia Acarín (Neuroscience Institute)

Evaluation Committee – E. Puighermanal, D. Pacheco, V. Martínez

Student	Time	TFM
Jiménez Doncel, Eric	9:00	Effects of a prebiotic intervention on motivation associated with food addiction in a murine model
Vilalta Jiménez, Daniel	9:30	Correlació entre la morfologia mitocondrial i la oxidació d'àcids grassos en astròcits
Arrizabalaga Cortés, Haizea	10:00	BMP4 como estrategia de diferenciación en células madre de glioblastoma: evaluación en modelos celulares derivados de pacientes
Villoslada Fanega, Ainhoa	10:30	Effect of FAIM-L on caspase-3 dependent Tau cleavage in PC12 cells and longitudinal study of Tau aggregates on P301S tauopathy mouse model
Carvajal Pérez, Nieves	11:00	Effect of amyloid- β oligomers in hippocampal dendritogenesis and synaptogenesis
Civit Solé, Maya	11:30	Behavioural alterations and glial immunoreactivity in a VPA animal model of autism
