

Xerox Research Centre Europe

Internship Programme

Want to spend some time in the European labs of a world class industrial research organization?

Xerox corporate research is looking for outstanding students in computer science, computational linguistics, computer vision and ethnography.

Xerox Research Centre Europe (XRCE) is the European branch of Xerox's Innovation Group which has a worldwide footprint with labs in the USA, Canada, India and Europe. The centre is set in the heart of the French Alps near Grenoble.

Xerox research is associated with many of the concepts that define much of today's working environments: the personal computer, the graphical computer interface, the mouse-driven computer interface, the laptop, digital laser printing, word processing, the Ethernet and ubiquitous computing to name but a few.

The Centre is a multidisciplinary and extremely multicultural organization specializing in

service analytics, work practice technologies, machine learning, computer vision, natural language processing, data mining and software architectures and frameworks. It creates innovative services and solutions for a number of industries including Transportation, Healthcare and Customer Care. The centre collaborates with many partners in the European scientific community on a number of R&D projects.

Location:

XRCE is located in the south east of France in Grenoble. The notoriety of Grenoble comes from its exceptional natural environment and scientific reputation with 21,000 jobs in public and private research. It has a large student community (over 61,000 students 10% of foreign students) and is a lively and cosmopolitan place, offering a host of leisure opportunities. Grenoble is close to both the Swiss and Italian borders and is the ideal place for skiing, hiking, climbing, hang gliding and all types of mountain sports.

Student profile:

Students should have at least four years in higher education in the relevant field of higher education.

All applicants must be registered students at a university or other academic institution. An internship agreement is signed between Xerox and the student's institution. Xerox is an equal opportunity employer.

XRCE in France

Grenoble

Starting dates:

January to December
