TEACHING TOOLS

All tools are accessible through the UAB Intranet (SIA).

Institutional Email

Mandatory communication tool among members of the university community and its bodies. It can be redirected to a personal email for everyday use.

Virtual Campus

Teaching platform that provides an essential virtual environment for managing teaching materials, student communication, and subject assessment.

Sigm@-CDS

Computer application for entering student assessments and closing official records. The Academic Management office at each campus provides support for all procedures.

GERES

Computer application for ad-hoc reservations of spaces and classrooms. The Logistical Support and Information Point (SLiPI) at each campus manages the classrooms and logistics.
