Refugees Programme

Refugee

The UAB Refugee Programme helps enhance university practices to support the rights of forcibly displaced people and individuals seeking international protection, assisting them in rebuilding their lives and futures. In a global context marked by increased forced displacement and ongoing violations of the rights of migrants and refugees, universities must also respond to this situation.

Launched in 2016, the programme is implemented by the Fundació Autònoma Solidària (FAS) in coordination with various university stakeholders.

The programme is built around three main areas of action: training, awareness-raising, and participation, with networking serving as a cross-cutting theme.

The main actions it carries out include:

Personalised support

Personalised guidance: academic orientation, support with the legalisation of documentation, legal advice, and access to other services (languages, employment, healthcare, etc.).

[Download "UAB Refugee Program Student Guide" to know more about personal assistance](#)

#UABRefugi Scholarships

The #UABRefugi scholarships promote access to higher education as a fundamental right for people who have experienced forced displacement and/or are seeking refuge, ensuring equal conditions for access to higher education.
