Timetable information

In **blue-green** you will see the the **mandatory subjects**, whereas in **different** colors, the **optative** ones. Before enrolling, verify that the optional subject you want to take is compatible in terms of timetables with the compulsory subjects of the corresponding track.

These timetables are based on the current timetables for the 2022-23 school year. Some subjects may be affected by changes for the 2023-22 academic year. The information will be updated.

Periodically consult on the website for possible changes and/or modifications of schedules or classrooms.

Materials and Nanotechnologies Applications								
1st semester	Monday		Tuesday	Wednesday		Thrusday	Friday	
8:00-10:00								
10:00-11:00			Cultural History of the British Isles - 106284	Exploring World Geography: Places and		Cultural History of the British Isles - 106284		Exploring World Geography: Places and
11:00-12:00			(2504212)	Regions in Human Geography	Polymeric Materials and Biomaterials - 102510	(2504212)	Polymeric Materials and Biomaterials - 102510	Regions in Human Geography
12:00-13:00	Polymeric Materials and Biomaterials - 102510							
13:00-14:30			Comparative Literature - 100271 (2504212)					Comparative Literature - 100271 (2504212)
15:00-16:00	Political Institutions -			Political Institutions -	World Economic History -		Nanotechnology for Diagnostics - 43433	Nanochemistry: from Small Molecules to
16:00-16:30	106185 (2504216)			106185 (2504216) B11/032 - (106184) 1486 Nanotechnology for		Nanoporous Materials - 43436 (4314939)		
16:30-17:00	Nanotechnology for Diagnostics - 43433	Nanochemistry: from Small Molecules to			Nanotechnology for Therapy and Remediation	Therapy and Remediation - 43434 (4314939)		
17:00-18:30	(4314939)	Nanoporous Materials - 43436 (4314939)			- 43434 (4314939)	- 43434 (4314333)
