- Inform that it is a research project, title, author and supervisor's name, type study and Department, Faculty and year of production.

The **first page** will include the following text:

Report presented to aspire to the Master's degree in Experimentation in Chemistry [Name and signature of the author]  
Seen [Name and signature of the supervisor/s]  
Bellaterra, [dd/mm/yyyy] \*

\*Date of deposit in the Department of Chemistry

DEPARTMENT OF CHEMISTRY

Optionally, a single copy of supplementary material (annex) can be sent to the court. In the case of including annexes, it is necessary to indicate clearly that it is an annex and number them if they are more than one.

## **DISSERTATION**

The oral dissertation and public performance will take 20 minutes maximum. After the dissertation take place, the committee will discuss with the student all the aspects that it considers relevant in a maximum time of 20 minutes.

In the Master thesis assessment, the committee will have to take into account:

- The master thesis memory itself.
- The degree of knowledge of the student about the work presented in the memory.
- The confidential report of the director of the work.
- The public dissertation of the work. The use of comprehensible language for a diverse audience is recommended.
- The answers of the student to the questions of the committee.
