

Second Phase

Instructions for the interview and seminar presentation

The second phase of the selection process will be conducted *in person* at the premises of the Universitat Autònoma de Barcelona (UAB). Please refer to the official document released by the UAB on its website for details regarding the exact room and time.

Each candidate will have a maximum of **60 minutes** to present their qualifications and plans, structured as follows:

- **30 minutes** of looking back: A brief overview of key achievements (5 minutes), followed by a more detailed presentation of one previous research project and its results (25 minutes).
- **15 minutes** of discussion about this presentation with the members of the evaluation committee.
- **30 minutes** of looking forward: Presentation of plans for research and teaching in the coming years, taking the facilities and expertise of the Physics Department into account, as well as possible international collaborations.
- **15 minutes** of discussion about this presentation with the members of the evaluation committee.

Evaluation:

The ranking will be based on the two parts of the discussion with equal weights:

- Past achievements and results
- Plans for future research and teaching

For further information on facilities and expertise of the department, you can contact Javier Rodriguez Viejo at javier.rodriquez@uab.cat
