

Job description: Chemist (Research Assistant)

Mission, Vision, Values

Our mission at Distinkt is to protect and strengthen confidence in the security and authenticity of documents and products worldwide by creating and supplying innovative, high-quality security solutions based on patented nanotechnology. We work tirelessly to provide advanced solutions that combat counterfeiting and fraud, ensuring the integrity of information and the protection of our clients' intellectual property.

Our vision is to be a world leader in creating non-replicable visual effects in the security industry, setting the standard of excellence in authentication and protection. We constantly seek innovation and collaboration with our customers to develop cutting-edge solutions that address growing security threats.

In our pursuit of our mission and vision, we base our company on strong values that guide every aspect of our work and relationships with others. These values are fundamental to our identity and are as follows:

1. *Integrity*: We act honestly and ethically in everything we do. We maintain high standards of integrity in our relationships with customers, partners and employees.
2. *Innovation*: We encourage constant creativity and innovation. We seek new and efficient solutions to meet the challenges in the field of document and product security.
3. *Social and Environmental Responsibility*: We are aware of our impact on society and the environment. We adopt sustainable and responsible practices in our operation and production.
4. *Security*: We dedicate our expertise and resources to contribute to a safer world. We work to prevent fraud and counterfeiting, promoting security in society.
