General process

The achievement of the objectives of the Doctorate Program will be proved with the oral presentation (15 minutes) of an **ANNUAL REPORT by the doctoral student**, in front of the Follow-up Commission appointed for this purpose and constituted by 3 professors in the field.

The activity of the Commission is not carried out for the purpose of qualification, since, indeed, there is no grade, but it is for the purpose of evaluating the work done during the course. The Doctoral Commission will write an Evaluation Report with recommendations and suggestions related to the thesis research and will propose or not, with a report, that the doctoral student pass to the following year of the thesis.

The planned sequence will be:

1. *First year: presentation of the thesis project.*
2. *Second year: presentation of progress.*
3. *Third year: presentation of provisional results.*
