

Programa de Doctorat en Ciència i Tecnologia Ambientals

Annual progress review of PhD students 2020 – 2021

The progress of **1st year PhD** candidates (enrolled during the academic course 20120-21) will be evaluated by means of

- ❖ A report by the student's doctoral supervisor, e-mailed to doctorat.icta@uab.cat one week before the evaluation.
- ❖ A 10 minutes oral presentation (in Catalan, English or Spanish) to the evaluation committee, followed discussion with the committee.
- ❖ The oral presentation, e-mailed to doctorat.icta@uab.cat one week before the evaluation, must contain the following sections:
 - State of the art of the PhD topic
 - Objectives of the doctoral project, including their justification and description of the research rationale
 - Methodology
 - Preliminary results
 - Detailed planning for the next academic year, including the writing up of research papers.
- ❖ The objective of the evaluation is to check how the thesis is developing according to the research plan, and planning of any contingencies.
- ❖ The evaluations will be on **September 15, 2021** according to the schedule proposed by ICTA.
 - ❖ **All PhD students must attend the oral evaluations of their PhD peers, to learn about other topics within their field of study.**
- ❖ Each research area will have its own evaluation commission. The research areas are:
 - Ecological Economics and Environmental Management
 - Environmental Technology
 - Global Change and Climatic Change
 - Industrial Ecology

Environmental Technology			
Xavier Font	Montserrat Sarrà	Albert Guissasola	Juan A. Baeza*

Industrial and Urban Ecology			
Cristina Madrid	Laura Talens	Alba Badia	Xavier Gabarrell*

Ecologic Economics			
Gonzalo Gamboa	Daniela del Bene	Sergio Villamayor	Helen Cole*

Global & Climate Change			
Graham Mortyn	Jordi G. Orellana	Laura Calvet	Maria Raja*

Programa de Doctorat en Ciència i Tecnologia Ambientals

Annual progress review of PhD students 2020 - 2021

- The progress of **2nd year PhD** candidates (enrolled during the academic course 2019-2020) will be evaluated by means of

- ❖ A report by the student's doctoral supervisor, e-mailed to doctorat.icta@uab.cat one week before the evaluation.
- ❖ Evidence of the submission of a paper to an international peer-reviewed indexed journal, derived from his/her doctoral research to date, e-mailed to doctorat.icta@uab.cat

A presentation (10 min) (in Catalan, English or Spanish), E-mailed to doctorat.icta@uab.cat , which must contain the following sections:

- Planning of the PhD project for the current academic year
 - Progress report including results obtained
 - Dissemination activities
 - Preliminary conclusions
 - Future work plan
- ❖ The main objective of the evaluation is for the committee to **detect** any **dysfunctions** during the development of the PhD research plan that may place in jeopardy the completion of the project within 3 years.
 - ❖ If the PhD project is developing according to the research plan, and a paper has been submitted, the committee can assume that the PhD project is on track.
 - ❖ The evaluations will **not** be **open** sessions and will only be attended by the evaluators and the student.
 - ❖ The evaluations will be arranged **on September 16, 2021** according the schedule proposed by ICTA.

Environmental Technology			
Julio Pérez-Cañestro	Maria Teresa Vicent	David Gabriel	???

Industrial and Urban Ecology			
Raul Velasco	Carles Martínez-Gasol	Jordi Oliver	???

Ecologic Economics			
Jeroen van den Bergh	Arnim Scheidel	David Sauri	Federico de Maria*

Global & Climate Change			
André Colonese	Carles Barriocanal	Victoria Reyes	Victor Sarto*

Programa de Doctorat en Ciència i Tecnologia Ambientals

Annual progress review of PhD students 2020 - 2021

- The progress of **3rd year PhD** candidates (**enrolled during academic course 2018 -19 and that do not deposit the thesis before September 30, 2021**) will be evaluated by means of
 - ❖ A report by the student's doctoral supervisor e-mailed to doctorat.icta@uab.cat one week before the oral exposition.
 - ❖ An oral presentation (10 min) (in Catalan, English or Spanish), e-mailed to doctorat.icta@uab.cat, which must describe:
 - Publications derived from the PhD thesis.
 - Completion schedule of the PhD Thesis
 - If required, a justification of why an extended period is required to complete the thesis, and contingency planning to do so...
 - ❖ The main objective of the evaluation is to show that a plan is in place to complete the thesis in 3 years, or shortly after that.
 - ❖ The evaluations will not be open sessions and will only be attended by the evaluators and the student.
 - ❖ The evaluations will be arranged on **September 17th, 2021** according the schedule proposed by ICTA.
