(2) For self-service users (mandatory prior training, between 1 and 4 hours ) a minimum of 1,5 hours of "Experimental services in neurosciences" will be charged for reagent preparation and waste management. Time spent on putting samples in cassettes or paraffin blocks preparation is not included.						
(3) To calculate the number of samples, the samples from different users that can be processed together will be combined. The hours for "experimental services in neurosciences" will be divided equally among them.

<b>FOR SPECIFIC REQUESTS INDIVIDUAL QUOTATIONS WILL BE PROVIDED. If it is necessary to use consumables not included in the rates, they will be invoiced separately, at cost price for internal and mixed 1A rates. The cost of stock preparation and order management will be included if applicable. The use of all facilities is subject to mandatory prior training. The duration of the training will be adapted to the needs and prior knowledge of the user. The use of consumables, equipment and technician time will be invoiced in each specific case.</b>
