Assessment

Assessment will take place throughout the whole academic year by the assignments set. In general, the evaluation follows the criteria established in "Criteris i pautes generals d'avaluació de la Facultat de Ciències de l'Educació", passed by the COA on 28th May 2015 and modified by la Junta de Facultat on 6th April 2017, as shown in:

The final grade of Llenguatges i Contextos II consists of adding the corresponding percentages of Spanish (60%) and English (40%) respectively.

So as to pass the subject our students have to obtain 5 (minimum mark) per language. Otherwise, it will count as fail. Likewise, all the activities carried out will have to obtain 5 to pass the subject.

Attendence is compulsory: 80% attendance per language or it will count as no avaluable. Presenting a document to justify non attendance does not eliminate the absence as it only counts to explain the reason.

In general, the main criteria that will be applied in the assessment of the evaluating items per language are: 1) informative rigour and conceptual correctness, 2) clarity and expository coherence (both oral and written, and 3) lingüistic adequacy and correctness.

In Spanish language, every spelling, lexical or syntactical mistake will be penalized 0,25 over the final mark of each assessment item; competences will be taken into account both in the contents and in the written expression when evaluating all the assignments/tests. In English language, in order to pass the subject students from group 71 have to show that they have met the goals set by B2 descriptors (B2.2) from the Common European Framework of Reference. Groups 21, 31 and 41 have to proveaB1 level.

Fail occurs when students do not carry out all the assignments or fail one. On the other hand, when a teacher finds students copying a task or in an exam they will be automatically penalized with Fail in all the subject, in other words, students will not be entitled to re-assess anything and Degree Coordinators will be informed accordingly.

Repeaters are entitled to re-assess their marks by sitting for a global exam per language. Students interested in such a test have to ask the corresponding lecturers before 15th October 2018 (a written request)

Results will be published within 7 to 40 days after the assessment task. Each lecturer will indicate the corresponding revision for the tasks set.

Re-assessment of failed activities (exam, exercises, tasks) will take place when lecturers indicate it and, preferably, once tuition in that language is over. Re-assessment criteria are common for both languages. To re-asses any of the two languages students must have carried out one of the three activities scheduled. Re-assessment will be presential and in written and/or oral form (as indicated by the lecturer)

All evaluation tests are individual.
